

SDGI Announcement

Application Developer and Programmer

iPhone/iPad & Android

SDGI is currently looking for a skilled App-developer/programmer to develop, implement and successfully market an application on behalf of Sustainable Development Group International/ SDGI Consulting- Sweden.

Criteria:

The applicant must have a good command and documented experience in developing Apps for iPhone/iPad and/or Android devices. He/She must be able to work independently with regular supervision from respective project coordinator.

He/She must be flexible, responsible and adhere to set deadlines. The applicant must be able to produce and share creative ideas while contribute positively to the conceptualization and development of the App. The applicant is also expected to actively participate during testing and marketing of the product.

Fluency in English is a must. Preference will be given to developers with knowledge of French and Spanish.

We welcome applicants from the Stockholm region although this is not a rigid selection criteria. Availability is a must!

Application details:

If interested please send a CV and/or short description of previous work and relevant contact details to info@sdg-int.org. Mark your e-mail 'SDGI App Dev'.

Only shortlisted applicants will be contacted.
